

Our primary care nurses, including Licensed Practical Nurses (LPNs) and Registered Nurses (RNs), collaborate with you to create a medical home for your patients. They are crucial in managing and guiding patients through the healthcare system, ensuring their smooth and efficient healthcare journey. Nurses working closely with family physicians helps enhance the quality of care patients receive.

## TEAM MEMBERS

- Primary Care Nurse
- Referring EWPCN Family Physician

We can support your clinic with:

- Health assessments and promotion
- Care coordination
- Chronic disease management
- Clinical primary care tasks
- Quality improvement initiatives

## IN-SCOPE

- All ages
- Urgent, non-urgent and/or walk-in patients of a member clinic

## OUT-OF-SCOPE

- Virtual out of province patients
- Home visits
- Medical forms for patients not seen by a Primary Care Nurse or that must be filled out by a physician
- Uninsured services

## REFERRAL PROCESS

There is no referral form. Referrals are established within each clinic. Appointments can be in-person at physician member clinics where a primary care nurse has been placed in the clinic, virtually via approved clinic-specific platforms, or via telephone or secured video.

Call us if you have any questions about EWPCN's programs and services.
